

A specialized and reliable partner in both road and intermodal (road and sea) transportation, logistics and distribution of all types of goods all over Europe.

Trans Isole is the brand that has represented Spighetto family for two generations. A ‘total quality’ organisation with a human face, gathering ever-growing trust and success in both road and intermodal (road and sea) transportation, integrated logistics and distribution all over Europe.

The company’s solid family run approach combined with the strong dynamism and international know how and expertise of the management team, guarantee the highest levels of professionalism, short delivery times, punctuality and total care and safety in the handling of goods.

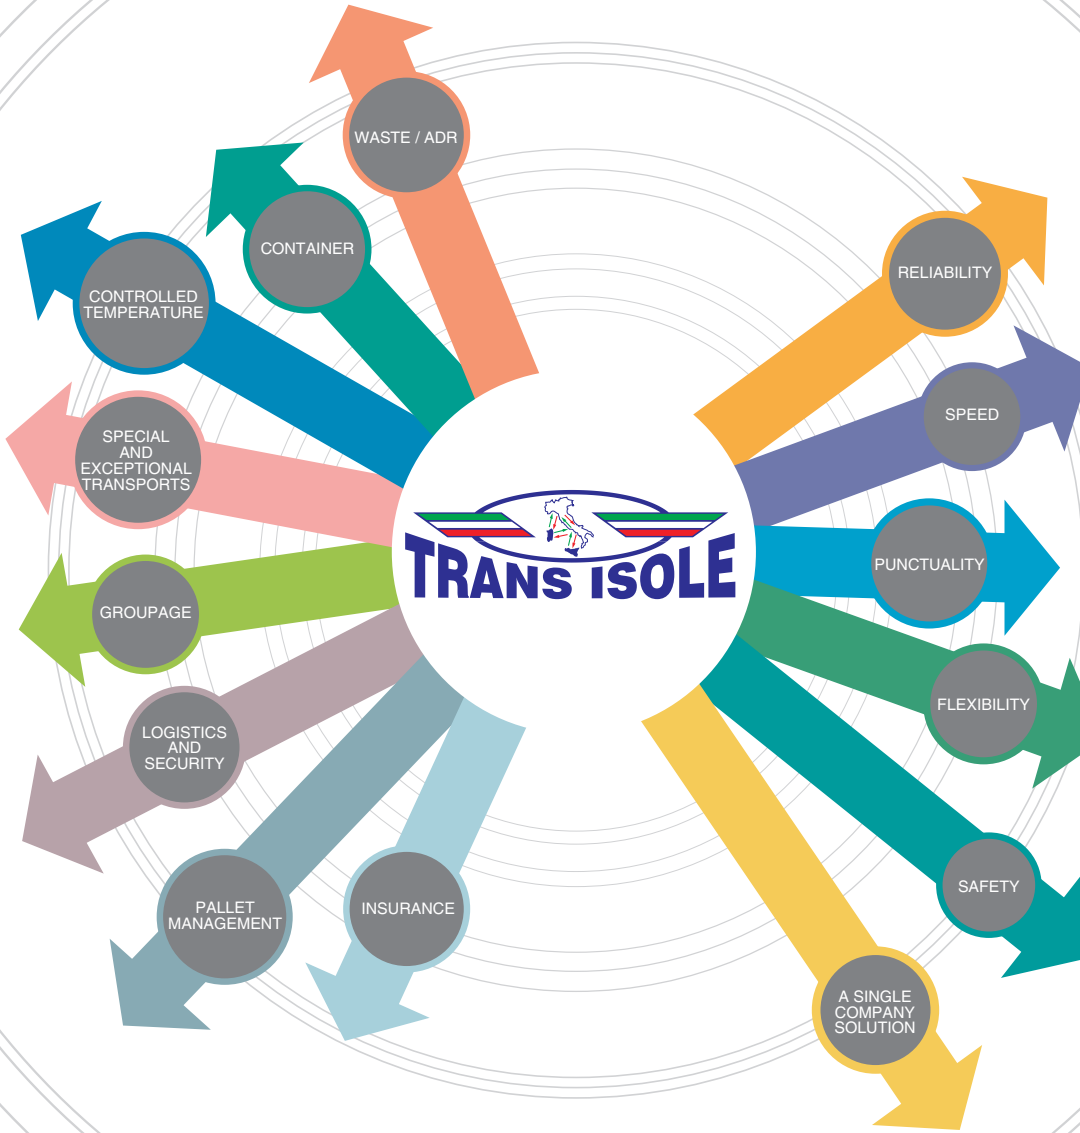

The company is able to expertly undertake transportation and shipments of any type, from small parcels to full containers, dry foodstuffs, temperature-controlled fresh and liquid products, through to the transportation of dangerous goods, ADR goods and special and exceptional transports.

THE BEST WAY TO REACH EUROPEAN DESTINATIONS
AND THE MEDITERRANEAN ISLANDS.

A SPECIALIST IN EUROPEAN ROAD AND INTERMODAL
(LAND-SEA) TRANSPORTATION FOR ALL TYPES OF GOODS.

LOGISTICS & TRASPORTATION

A single, trustworthy partner to deliver your goods. Throughout Europe.

Trans Isole offers clients the company’s expertise in organising domestic and international shipments thanks to a fleet of vehicles featuring all the necessary equipment to meet every need, in synergy with the extensive adaptability and flexibility of the company’s organisational system.

We love challenges, and always say yes!

The company offers integrated services for storage and distribution logistics, via a network of its own warehouses, featuring advanced technological systems and located in strategic hubs across Europe. Our team is responsible for the resolution of any and all issues related to the organisational and bureaucratic aspects of each shipment.

rear tipping, equipped with a hydraulic lid.
Suitable for the transportation of foodstuffs and
category 1/4/5 waste (ADR).
HCCP-Compliant.

INTERMODAL LAND&SEA FREIGHT

The most sustainable, affordable and flexible way to reach the economic heart of Europe.

Trans Isole flawlessly manages combined **land-sea transport solutions** (intermodal shipping) to all European destinations and for all types of goods, without any exclusions. This is thanks to a **consolidated network of partners of excellence** across Europe, which includes the Compagnia Marittima Grimaldi Lines, of Naples.

This adaptable and flexible method of transportation, combines –with optimal results– heavy vehicles and navigation, and guarantees fast and sure loading, **greater load capacities and lower operating**, administration, organizational and –not least– environmental **costs**.

With this method, your goods will travel across Europe without traffic jams, incidents, accidents or circulation bans. You can **reduce** loading and unloading operations, notably lowering **costs**, while contributing to reducing air **pollution** due to lower CO2 emissions.

ETHICS AND ENVIRONMENTAL PROTECTION

A company is nothing without a sense of responsibility to the community, the environment and the common good.

Trans Isole observes all of the regulations and guidelines relating to environmental protection. The fleet boasts **Euro 6 vehicles** equipped with advanced technologies that ensure a low environmental impact. The company’s new warehouses and administration buildings are equipped with **photovoltaic systems** to reduce air-polluting emissions. The warehouses are also designed to integrate well with their surroundings and the environment, and feature **green zones**.

Trans Isole makes a daily contribution to environmental protection, thanks to procedures that dramatically reduce single journeys, optimize flows and combine transport systems, to avoid unnecessary pollution.
